Independent Auditors' Report

Honorable City Council
City of Mathis, Texas

Members of the Council:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Mathis, Texas, as of and for the year ended September 30, 2015 and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Mathis, Texas, as of September 30, 2015, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note L and T to the financial statements, in 2015, the City has adopted new accounting guidance prescribed by GASB #68 for its pension plan a multiple-employer, cost-sharing, defined benefit pension plan that has a special funding situation.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis and budgetary comparison information* on pages 3-9 and the budgetary schedules presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Mathis' basic financial statements. The combining and individual non-major fund financial statements and the other information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The *combining and individual non-major fund financial statements* is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the above paragraphs, the combining and individual non-major fund financial statements is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**CITY OF MATHIS, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2015**

In this section of the Annual Financial and Compliance Report, we, the managers of City of Mathis, Texas, discuss and analyze the City's financial performance for the fiscal year ended September 30, 2015. Please read it in conjunction with the independent auditors' report on page 1, and the City's Basic Financial Statements which begin on page 13.

FINANCIAL HIGHLIGHTS

- During the year, the City had expenditures of \$3,507,804 that were \$93,228 more than the \$3,414,576 generated in tax and other revenues/transfers net of \$84,275 for governmental programs (before special items of \$177,503) (Exhibit C-3). This compares to last year (2014) when expenditures (\$3,169,569) were \$223,586 more than revenues (\$2,945,983) and net transfers of \$177,948.
- In the City's business-type activities, operational revenues increased from \$1,492,719 in 2014 to \$1,917,692 and expenses increased from \$1,017,133 to \$1,453,890 for a net operating income of \$463,801 (compared to \$475,586 in 2014), after transfer out, a net increase of \$178,939 before a prior period adjustment from the GASB 68 pension resulted in a net increase of \$144,619 for a total increase in the change in net position of \$323,558.
- The General Fund ended the year with a fund balance of \$142,372 up from 2014 of \$98,562.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities (on pages 13 and 14-15). These provide information about the activities of the City as a whole and present a longer-term view of the City's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (starting on page 16) report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the City were sold to departments within the City or to external customers and how the sales revenues covered the expenses of the goods or services. The remaining statements, fiduciary statements, provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the City.

The notes to the financial statements (starting on page 32) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for non-major funds contain even more information about the City's individual funds. The sections labeled Required Schedules Section contain data used by monitoring or regulatory agencies for assurance that the City is using funds supplied in compliance with the terms of grants.

Reporting the City as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the City's overall financial condition and operations begins on page 13. Its primary purpose is to show whether the City is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the City's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the City's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The City's revenues are divided into those provided by outside parties who share the costs of some programs, such as fees charged from outside the City and grants provided by the various federal agencies to assist the City with various infrastructure needs. All the City's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the City's net position and changes in them. The City's net position (the difference between assets and liabilities) provide one measure of the City's financial health, or financial position. Over time, increases or decreases in the City's net assets are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the City, however, you should consider non-financial factors as well, such as changes in the City's property tax base and the condition of the City's facilities.

In the Statement of Net Position and the Statement of Activities, we divide the City into kinds of activities:

- Governmental activities—Most of the City's basic services are reported here, including the street, infrastructure, police, fire, ambulance and general administration. Property taxes, fees, and state and federal grants finance most of these activities.
- Business-type activities—The City charges a fee to “customers” to help it cover all or most of the cost of services it provides in the utility fund for water and sewer charges.
- Component units—The City includes two component units – The Mathis Economic Development Corporation and the Pride of Mathis. Although legally separate, these “component units” are important because the City is financially accountable for them.

Reporting the City's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 16 and provide detailed information about the most significant funds—not the City as a whole. Laws and contracts require the City to establish some funds, such as grants. The City's two kinds of funds—governmental and proprietary—use different accounting approaches.

- Governmental funds—Most of the City's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the City's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.
- Proprietary funds—The City reports the activities for which it charges users (whether outside customers or other units of the City) in proprietary funds using the same accounting methods employed in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise funds (one category of proprietary funds) are the business-type activities reported in the government-wide statements but containing more detail and additional information, such as cash flows.

The City as Trustee

Reporting the City's Fiduciary Responsibilities

The City is the trustee, or fiduciary, for money raised on behalf of the Mathis Police Reserves. All of the City's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We exclude these resources from the City's other financial statements because the City cannot use these assets to finance its operations. The City is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Our analysis focuses on the net assets (Table I) and changes in net position (Table II) of the District's governmental and business-type activities.

Net position of the City's governmental and business activities increased from \$11,969,539 to \$12,890,124. Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – were \$202,902 at September 30, 2015, governmental activities was \$1,179,699. This increase in governmental net position was the result of primarily a result of current year's operations.

The assessed valuation before exemptions at January 1, 2015 totaled \$108.9 million. The current tax rate is \$.96 per \$100 valuation with a current tax levy of \$1,049,004. The current tax rate finances debt service and the city's operations.

Through the month of September 2015, the Tax Assessor/Collector's office reports \$1,003,405 of the levies had been collected. Current tax collections for the operating and interest and sinking fund was \$873,606 or 83.51% of the amount levied, including delinquent collections of \$129,799 or 12.41%. The total overall collection rate for current and delinquent collections to the current levy was 95.92%. Penalties of \$73,970 were also collected.

The City took actions this year to compensate for some increases in cost and avoid the loss of city revenues.

The City increased the property tax rate to \$.96 from the prior year of \$.90. This was an increase due to the increased valuations of the City.

The cost of all governmental activities this year was \$3.63 million compared to \$3.341 million last year, as shown in the Statement of Activities on pages 14 and 15. The business type activity expenses were \$1,453,890, up from the prior year of \$1,133,506.

THE CITY'S FUNDS

As the City completed the year, its governmental funds (as presented in the balance sheet on page 16 reported a combined fund balance of \$496,411. (Exhibit C-1, C-3).

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2015, the City had \$10,414,780 invested in a broad range of capital assets, including facilities and infrastructure in the governmental activities. Proprietary funds had \$11,531,061 invested in fixed assets at year-end as in the prior year.

This year's 2014/2015 continued finishing major additions included:

	-
Fixed asset additions - net	182,799
	-
	-
	<u>182,799</u>

Debt

At year-end, the City had \$2,234,098 in bonds and notes outstanding versus \$2,370,507 last year, the EDC had \$223,361 in bonds. Other obligations include accrued vacation pay and sick leave. More detailed information about the City's long-term liabilities is presented in the notes to the financial statements.

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS’s Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

During the year, the City has implemented GASB 68, Accounting For Pensions. As part of the implementation, prior period adjustments has been made to the Governmental Funds in the amount of \$595,780 to reflect the net pension liabilities of the Plan at the inception of the fiscal year.

Plan Description

The City of Mathis, Texas, participates as one of 860 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS’s defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. All eligible employees of the city are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee’s contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member’s deposits and interest.

TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by the System. This report may be obtained by writing to TMRS, P.O. Box 149153, Austin, TX 78714-9153 or by calling 800-924-8677; in addition, the report is available on TMRS’ website at www.TMRS.com.

Employees covered by benefit terms.

At the December 31, 2014 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	20
Inactive employees entitled to but not yet receiving benefits	80
Active employees	<u>46</u>
Total	<u>146</u>

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Mathis, Texas, were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City of Mathis, Texas, were 1.36% and 3.15% in calendar years 2014 and 2015, respectively. The city's contributions to TMRS for the year ended September 30, 2015, were \$45,742, and were equal to the required contributions.

The City does not have an unfunded Actuarial Accrued Liability overall. See notes to financial statements for additional information.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City's elected and appointed officials considered many factors when setting the fiscal-year 2015 budget, tax rates. One of those factors is the economy.

These indicators were taken into account when adopting the General Fund budget for 2016. Amounts available for appropriation in the General Fund budget are approximately \$3,211,763, an overall consistent budget over the final 2015 budget of \$3,211,763. Property taxes (benefiting from the 2015/2016 rate increases and increases in assessed valuations). Budgeted expenditures are expected to rise nearly 2 percent in 2016. Increased wages and salaries caused some of the increase including higher fuel and fuel related services. The City has upcoming capital projects from grants for a new festival area along with various infrastructure additions for the upcoming budget.

If these estimates are realized, the City's budgetary General Fund balance is expected to increase modestly by the close of 2016.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City's business office, at City of Mathis, Texas.

CITY OF MATHIS, TEXAS
 RECONCILIATION OF THE GOVERNMENTAL FUND BALANCE SHEET TO THE STATEMENT OF NET POSITION
 FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

Exhibit C-2

Total Fund Balances - Governmental Funds	\$ 496,411
<p>The City uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other governmental funds. The assets and liabilities of the internal service funds are included in governmental funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase (decrease) net position.</p>	
<p>Capital assets are used in governmental activities are not financial resources and therefore are not reported in governmental funds. The net effect of including these balances for capital assets (net of depreciation) in the governmental activities is to increase net position. At the beginning of the year, the costs of these assets were: \$ 10,231,980 and the accumulated depreciation was: \$ (5,161,108)</p> <p>In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase (decrease) net position --</p>	<p>4,139,952</p> <p style="text-align: center;"><u>(722,612)</u> .</p>
<p>Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the governmental-wide financial statements. The net effect of including the 2015 capital outlays and debt principal payments is to increase (decrease) net position.</p>	449,279
<p>The implementation of GASB 68 for this fiscal year required that the City report their net pension liability in the Government Wide Statement of Net Position. The items reported as a result of this implementation included a net pension liability of \$ 595,780 and a Deferred Resource inflow in the amount of \$ (32,424) , and a deferred resource outflow in the amount of \$ 70,265 .</p> <p>This resulted in an increase / (decrease) in net position by \$</p>	<p>633,621</p> <p style="text-align: center;"><u>633,621</u> .</p>
<p>The 2015 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.</p>	(366,961)
<p>Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue, eliminating interfund transactions, reclassifying the proceeds of bond sales as an increase in bonds payable, and the recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net position.</p>	403,706
Net position of Governmental Activities	<p>\$ <u><u>5,756,009</u></u></p>

CITY OF MATHIS, TEXAS
RECONCILIATION OF THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

Exhibit C-4

Total Net Change in Fund Balances - Governmental Funds \$ 84,275

The City uses some internal service funds to charge the costs of certain activities primarily to the governmental funds. The net income (loss) of these internal service funds are reported with governmental activities. The net effect of this consolidation is to increase (decrease) net position. -

Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the 2015 capital outlays and debt principal payments is to increase (decrease) net position. 532,961

The implementation of the requirements required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of 12/31/2014 caused the change in the ending net position to increase in the amount of \$ 40,945 . Contributions made before the measurement date but after the previous measurement date were reversed from deferred resource outflows and recorded as a current year expense. This caused a decrease in the change in net position totaling \$ (13,533) . The City's reported TMRS net pension expense had to be recorded. The net pension expense increase / (decreased) the change in net position by \$ 27,733 . The result of these changes is to increase / (decrease) the change in net position by \$ 55,145 55,145

Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position. (366,961)

Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to the accrual basis of accounting. These include recognizing deferred revenue as revenue adjusting current year revenue to show the revenue earned from the current year's tax levy, eliminating interfund transactions, reclassifying the proceeds from bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net position. 506,966

Change in Net Position of Governmental Activities \$ 812,387

NOTES TO FINANCIAL STATEMENTS

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Mathis, Texas (the City) was incorporated by an election held on August 16, 1938 and certified by the San Patricio City Commissioners Court on January 20, 1939. The City operates under charter – City Manager form of government and provides the following services: public safety, public transportation health, culture – recreation, public facilities, legal, election functions, and general administration services.

The Accounting principles of the City of Mathis, Texas conform to generally accepted accounting principles (GAAP) as applicable to local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

Principals Determining Scope of Reporting Entity

The financial statements of the City of Mathis consist only of the fund and account group. The City of Mathis has no oversight responsibility for any other governmental entity. Control or dependence is determined on the basis of budget adoption, taxing authority, funding, and appointment of the respective governing board.

A. REPORTING ENTITY

The City Council (the "Council") is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the Council is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." The Mathis Economic Development Corporation was formed via an election held on May 3, 1997 authorized by the Mathis City Council per ordinance No. 96-09 and authorized by Section 4B, Article 5190.06, V.T.C.S. A half-cent tax is assessed and collected via the sales tax and funds the projects as well as economic development for the city as allowed per the statute. The affairs of the Corporation are managed by a board of directors which are composed of seven persons appointed by the governing body of the City. The Corporation as a 4-B Sales Taxing entity and is required by generally accepted accounting principles (GAAP) to present the financial statements of the government is considered to be financially accountable. The Corporation, as a component unit of the City of Mathis, Texas, although legally separate entities, are, in substance, part of the governments, operations and so data from these units are combined with data of the City of Mathis, Texas, the primary government. These financial statements are reported in a separate column in the City of Mathis, Texas, financial statements to emphasize it is legally separate from the government.

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

The Cash accounts of the Mathis Economic Development Corporation are as follows:

	Risk Categories			Bank Balance	Carrying Amount
	(1)	(2)	(3)		
Cash Accounts	557,400	-	-	557,400	557,400
Total	<u>557,400</u>	<u>-</u>	<u>-</u>	<u>557,400</u>	<u>557,400</u>

The Corporation's investments are categorized as either (1) insured or registered, or securities held by the Corporation or its agent in the Corporation's name, (2) uninsured and unregistered with securities held by the financial institution's trust department or agent in the Corporation's name or (3) uninsured and unregistered with securities held by the financial institution's trust department or agent not in the Corporation's name. Cash amounts are secured within F.D.I.C. coverage and pledge amounts.

Bond requirements of the Mathis Economic Development Corporation are as follows:

Year Ending September 30	Principal	Interest	Requirement
2016	59,669	8,726	68,395
2017	62,169	6,291	68,460
2018	64,684	3,751	68,435
2019	36,839	1,801	38,640
Thereafter	-	-	-
Total	<u>223,361</u>	<u>20,569</u>	<u>243,930</u>

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the City of Mathis, Texas and its component unit(s) non-fiduciary activities with most of the inter-fund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Activities demonstrates how other people or entities that participate in programs the City operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the City. The "grants and contributions" column includes amounts paid by organizations outside the City to help meet the operational or capital requirements of a given function. Taxes are always general revenues.

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

Inter-fund activities between governmental funds appear as due to/due from on the Governmental Fund Balance Sheet and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance. All inter-fund transactions between governmental funds are eliminated on the government-wide statements. Inter-fund activities between governmental funds and enterprise funds remain on the government-wide statements and appear on the government-wide Statement of Net Position as internal balances and on the Statement of Activities as inter-fund transfers. Inter-fund activities between governmental funds and fiduciary funds remain as due from's/due to on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for City operations, they are not included in the government-wide statements. The City considers some governmental and enterprise funds major and reports their financial condition and results of operations in a separate column. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues result from providing goods and services in connection with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are non-operating. Operating expenses can be tied specifically to the production of the goods and services, such as materials and labor and direct overhead. Other expenses are non-operating.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses). The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The City considers all revenues available if they are collectible within 60 days after year end.

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The City considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors periodically require the City to refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The City applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before December 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Assets. The fund equity is segregated into invested in capital assets net of related debt, restricted net assets, and unrestricted net assets.

D. FUND ACCOUNTING

The accounts of the City of Mathis are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounting for with a separate set of self – balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses, as appropriate Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. Funds are classified into three categories; governmental, proprietary and fiduciary. Each category, in turn, is divided into separate fund types. The following fund types and account groups are maintained by the City of Mathis:

GOVERNMENTAL FUNDS

General Fund – The General Fund is the general operating fund of the City of Mathis. It is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund – The Debt Service Fund is the fund that is utilized to satisfy general obligations of the City with tax revenues.

Special Revenue Funds – The Special Revenue Funds account for resources generated by proceeds from revenue programs that are designated for or restricted to expenditures for specified purposes.

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

PROPRIETARY FUND

Enterprise Fund – The Enterprise Fund is used to account for the operation of the water and sewer utility system. Enterprise funds are used to account for operations (a) which are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

FIDUCIARY FUNDS

Fiduciary Fund – The Fiduciary Funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the City of Mathis, in a trustee or agency capacity. When these assets are held under the terms of a formal trust agreement, either a “non-expendable” or “expendable” refer to whether or not the City is under an obligation to maintain the trust principal. Agency funds generally are used to account for assets that the government as their agent, holds on behalf of others.

Trust and Agency – The Police Drug fund is used to account for money and property seized in drug raids according to legislation passed during the 71st Legislature of the State of Texas, and a “local agreement” with the state’s attorney. This money is to be used by the police department to combat drug crimes. Other trust monies include the Volunteer Fire Department and the Police Reserve Fund.

E. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., total net asset) is segregated into contributed capital and retained earnings components. Proprietary fund type operating statements present increase (e.g., revenues) and decreases (e.g., expenses) in total assets.

The modified accrual basis of accounting is used by all governmental fund types, expendable trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City of Mathis considers property taxes as available if they are collected within 60 days after year-end. A one-year availability period is used for revenue recognition for all other governmental fund revenues.

CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015

E. BASIS OF ACCOUNTING (continued)

Those revenues considered susceptible to accrual are property taxes, hotel taxes, special assessments, interest income and charges for services. Sales taxes collected and held by the State at year-end on behalf of the City also are recognized as revenues. Fines and permits are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recorded when the related fund liability is incurred.

All proprietary funds are using the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred. Utility revenues billed to customers are based on a monthly meter reading. Unbilled utility service revenues have been accrued through September 30, 2015.

F. OTHER ACCOUNTING POLICIES

Investments - The City of Mathis can legally invest in certificates of deposits, repurchase agreements, obligations of the U.S. Government and its Agencies or instrumentalities and State obligations, all of which are recorded at cost.

Restricted Assets - These assets consist of cash and liquid investments accounts restricted for the Water and Sewer Fund debt service. The City of Mathis has several combination debt service and revenue bond obligations. These obligations can be satisfied from either source of funds.

Inventories - Inventories are stated at the lower of cost or market. Inventories of material and supplies held by Water and Sewer Fund are recorded in the Enterprise Fund.

Fixed Assets Accounting - All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are recorded at their estimated fair market value on the date of donation. Public domain general fixed assets (infrastructure) consisting of certain improvements other than buildings, including roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, etc., have not been capitalized. Such assets are normally immovable and of value only to the City of Mathis, therefore, the purpose of stewardship for these items is satisfied without recording of these assets in governmental funds. No depreciation has been provided on general fixed assets.

Fixed assets of proprietary funds are capitalized in the fund accounts because the fixed assets are used in services sold. Fixed assets are recorded at historical cost if purchased or constructed. Donated assets are recorded at estimated market value as of date of donation. Depreciation of fixed assets for proprietary funds is recognized in determining net income and changes in fund equity. Depreciation of all exhaustible fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided using the straight-line method over the estimated useful lives of the assets, which range from 4 to 50 years.

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

Inter-fund Transactions

During the course of normal operations the City of Mathis has numerous transactions between funds including expenditures and transfers of resources to provide services and service debt. The accompanying financial statements generally reflect such transactions as operating transfers, which are included in the results of operations of both governmental and proprietary funds. Short – term inter-fund loans receivable (reported in “Due from Other Funds”) are considered “available spend-able resources”.

Reclassification and Prior Period Adjustment. Adjustments have been made to correct balances to audit adjustments.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET ASSETS

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net assets for governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. The details of capital assets and long-term debt at the beginning of the year were as follows:

<u>Capital Assets at the Beginning of the year</u>	<u>Historic Cost</u>	<u>Accumulated Depreciation</u>	<u>Net Value at the Beginning of the Year</u>	<u>Change in Net Position</u>
Land	\$ 322,575	\$ -	\$ 322,575	
Buildings	719,961	(528,358)	191,603	
Furniture & Equipment	3,413,093	(2,558,755)	854,338	
Capital Leases	-	-	-	
Infrastructure	<u>5,776,351</u>	<u>(1,772,523)</u>	4,003,828	
Change in Net Position	\$ 10,231,980	\$ (4,859,636)		<u>\$ 5,372,344</u>
<u>Long-term Liabilities at the Beginning of the year</u>				
Bonds Payable	\$ 585,000			
Loans Payable	137,612			
Capital Leases Payable	208,308			
Compensated Absences	17,193			
Other	-			
Change in Net Position	<u>948,113</u>			<u>\$ (948,113)</u>
Net Adjustment to Net Position				<u>\$ 4,424,231</u>

CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015

B. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

Exhibit C-4 provides reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net position of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net asset balance and the change in net position. The details of this adjustment are as follows:

	Amount	Adjustments to Changes in Net Position	Adjustments to Net Position
<u>Current Year Capital Outlay</u>			
Land	\$ -	\$ -	\$ -
Buildings & Improvements	-	-	-
Furniture & Equipment	182,799	182,799	182,799
Construction in Process	-	-	-
Total Capital Outlay	<u>\$ 182,799</u>	<u>\$ 182,799</u>	<u>\$ 182,799</u>
<u>Debt Principal Payments</u>			
Bond Principal	120,000	120,000	120,000
Loan Principal	30,494	30,494	30,494
Capital Lease Payments	115,986	115,986	115,986
Other	2,167	2,167	2,167
Total Principal Payments	<u>268,647</u>	<u>268,647</u>	<u>268,647</u>
Total Adjustment to Net Position	<u>\$ 451,446</u>	<u>\$ 451,446</u>	<u>\$ 451,446</u>

Another element of the reconciliation on Exhibit C-4 is described as various other reclassifications and eliminations necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. This adjustment is the result of several items. The details for this element are as follows:

	Amount	Adjustments to Change in Net Position	Adjustments to Net Position
<u>Adjustments to Revenue and Unavailable Revenue</u>			
Taxes Collected from Prior Year Levies	\$ -	\$ -	\$ -
Uncollected taxes (assumed collectible) from Current Year Levy	175,397	175,397	175,397
Uncollected Taxes (assumed collectible) from Prior Year Levy	527,242	527,242	527,242
Other	-	-	-
Total	<u>\$ 702,639</u>	<u>\$ 702,639</u>	<u>\$ 702,639</u>

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

Budgets and Budgetary Accounting

The following procedures are used by the City of Mathis in establishing the budgetary data reflected in the financial statements:

(1) Prior to October 1, the beginning of the fiscal year, the City Manager submits a proposed budget to the Council. The operating budget includes proposes expenditures and the means of financing them. The Budget process begins several months usually in July of the preceding fiscal year starts.

(2) Public hearings are conducted to obtain taxpayer comments.

(3) The budget and the tax levy are legally enacted through the passage of ordinances.

(4) The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total appropriations of any fund must be approved by the Council.

(5) Formal budgetary integration is employed as a management control device during the year for the General, Special Revenue Fund, and Proprietary Funds.

(6) Budgets for the General, Debt Service, Special Revenue and Proprietary Funds are adopted on a basis consistent with generally accepted accounting principles. Budgeted amounts are as originally adopted or as amended by the City Council.

(7) Appropriations lapse at year-end.

B. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

Various line item expenditures exceeded appropriations but overall the City remained within its various departmental budgets.

C. DEFICIT FUND EQUITY

None

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

IV. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. DEPOSITS AND INVESTMENTS

The funds of the City must be deposited and invested under the terms of a contract, contents of which are set out in the **Depository Contract Law**. The depository bank places approved pledged securities for safekeeping and trust with the City's agent bank in an amount sufficient to protect City funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

At September 30, 2015, the carrying amount of the City's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$668,385 and the bank balance was \$563,293. The City's cash deposits at September 30, 2015 and during the year ended September 30, 2015 were entirely covered by FDIC insurance or by pledged collateral held by the City's agent bank in the City's name.

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the City to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the City to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the City to have independent auditors perform test procedures related to investment practices as provided by the Act. The City is in substantial compliance with the requirements of the Act and with local policies.

Both cash deposits and investments held at a financial institution can be categorized according to three levels of risk. These three levels of risk are:

Category 1 -Cash or Investments that are insured, registered or held by the City or by its agent in the City's name.

Category 2 -Cash or Investments that are uninsured and unregistered held by the counterparty's trust department or agent in the City's name.

Category 3 -Uninsured and unregistered investments held by the counterparty, its trust department, or its agent, but not in the City's name.

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

Based on these three levels of risk, all of the City's investments are classified as Category 1.

The City's investments at September 30, 2015, are shown below:

Investment Maturities (In Years)			
Investment or Investment Type	Fair Value	Less than 1	1 to 2
Investment in Tex-Pool	56,161	56,161	-
Total Fair Value	\$ 56,161	\$ 56,161	\$ -

Interest Rate Risk- In accordance with state law and City policy, the City does not purchase any investments with maturities greater than 10 years.

Credit Risk- In accordance with state law and the City's investment policy, investments in mutual funds and investment pools must be rated at least AAA, commercial paper must be rated at least A-1 or P-1, and investments in obligations from other states, municipalities, countries, etc. must be rated at least A. The City's investments in investment pools were rated AAA.

Concentration of Credit Risk- the City does not place a limit on the amount the City may invest in any one issuer. The City does not have a concentration of credit risk.

Custodial Credit Risk- For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City does not have a custodial credit risk.

B. PROPERTY TAXES

Property taxes attach as an enforceable lien on property as of January 1. The City's property tax is levied each October 1 on the basis of assessed values at the date the enforceable lien attaches. All unpaid taxes levied October 1 become delinquent February 1 of the following year.

The San Patricio City Appraisal City, assessed at 100% of appraised value establishes appraised values. The San Patricio City Tax Assessor collects the City's tax funds and remits the following month after collections are made.

The City of Mathis allocates and distributes property tax revenues as well as penalties and interest collected thereon to the General Fund and Debt Service Fund based on the percentage of collections and applicable tax rate. Property taxes receivable is recorded as assets and offset by a corresponding entry to deferred revenue. Property tax revenues are recorded revenues, as they become available.

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the City is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

D. INTERFUND BALANCES AND TRANSFERS

Inter-fund balances at September 30, 2015, consisted of the following amounts:

Due From:	
General Fund	-
All Others	56,429

**CITY OF MATHIS, TEXAS
 NOTES TO BASIC FINANCIAL STATEMENTS
 FOR THE YEAR ENDED SEPTEMBER 30, 2015**

L. DEFINED BENEFIT PENSION PLAN

Defined Benefit Pension Plans

A. Plan Description

The City of Mathis, Texas, participates as one of 860 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmr.com. All eligible employees of the city are required to participate in TMRS.

B. Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by the System. This report may be obtained by writing to TMRS, P.O. Box 149153, Austin, TX 78714-9153 or by calling 800-924-8677; in addition, the report is available on TMRS' website at www.TMRS.com.

Employees covered by benefit terms.

At the December 31, 2014 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	20
Inactive employees entitled to but not yet receiving benefits	80
Active employees	<u>46</u>
Total	<u>146</u>

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

C. Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Mathis, Texas, were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City of Mathis, Texas, were 1.36% and 3.15% in calendar years 2014 and 2015, respectively. The city's contributions to TMRS for the year ended September 30, 2015, were \$45,742, and were equal to the required contributions.

D. Net Pension Liability

The city's Net Pension Liability (NPL) was measured as of December 31, 2014, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions:

Inflation	3.0% per year
Overall payroll growth	3.0% per year
Investment Rate of Return	7.0%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Disabled Retiree Mortality Table is used, with slight adjustments.

Actuarial assumptions used in the December 31, 2014, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period January 1, 2006 through December 31, 2009, first used in the December 31, 2010 valuation. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2014 valuation.

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

The long-term expected rate of return on pension plan investments is 7.0%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Domestic Equity	17.5%	4.80%
International Equity	17.5%	6.05%
Core Fixed Income	30.0%	1.50%
Non-Core Fixed Income	10.0%	3.50%
Real Return	5.0%	1.75%
Real Estate	10.0%	5.25%
Absolute Return	5.0%	4.25%
Private Equity	5.0%	8.50%
Total	100.0%	

Discount Rate

The discount rate used to measure the Total Pension Liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015

<i>Changes in the Net Pension Liability</i>	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)

Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability of the City, calculated using the discount rate of 7.0%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0%) or 1-percentage-point higher (8.0%) than the current rate:

	1% Decrease in Discount Rate (6.0%)	Discount Rate (7.0%)	1% Increase in Discount Rate (8.0%)
City's net pension liability	\$(305,370)	\$(595,780)	\$(834,940)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at www.tmr.com.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended, the City of Mathis, Texas, recognized pension expense of \$(11,821).

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

At September 30, 2015, the city reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$29,320	\$32,424
Changes in actuarial assumptions	\$0	\$0
Difference between projected and actual investment earnings	\$0	\$0
Contributions subsequent to the measurement date	\$40,945	\$0
Total	\$70,265	\$32,424

\$40,945 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2015. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended Dec 31:	
2015	\$(16,875)
2016	\$(889)
2017	\$7,330
2018	\$7,330
2019	\$0
Thereafter	\$0

M. POST EMPLOYMENT HEALTH CARE BENEFITS

Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the City provides health care benefits to eligible former employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premiums are paid in full by the insured for the actual month covered. This program is offered for a period of 18 months after the termination date. There is no associated cost to the City under this program.

City supplemental death to:	Plan Year 2015	Plan Year 2014
Active employees (yes or no)	Yes	Yes
Retirees (yes or no)	Yes	Yes

CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015

The city's contribution to the TMRS SDBF for the years ended 2015, 2014 and 2013 were \$9,891, \$8,947, and \$9,090, respectively, which equaled the required contributions each year.

R. RELATED ORGANIZATIONS

The Mathis Economic Development Corporation (the "Corporation"), a not-for-profit entity which was organized to provide additional street and water improvements from a self imposed sales tax from a city wide referendum. The City Council appoints the member board of directors on a periodic basis and is a "related organization" of the City as defined by *Governmental Accounting Standards Board Statement No. 14*.

CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015

S. FUND EQUITY - GASB 54 NOTE

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. Fund balance is classified as non-spendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the government funds. The classifications are as follows:

Non-spendable - The non-spendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of inter-fund loans.

Restricted - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the City to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the City can be compelled by an external party-such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (ordinance or resolution) of the City of Council. Those committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by City Council separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the City Council or state statute.

Unassigned - Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

**CITY OF MATHIS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

City Fund Balance Policy

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used. The City has in the past and plans to continue in the future its conservative approach to monitoring expenditures to ensure that fund balances stay strong. The City is working on rebuilding its fund balance.

Fund Balance - GASB 54 Compliance

By a majority vote in a scheduled meeting of the City Council, the Council may commit fund balances and it may modify or rescind these commitments. The City Council may also delegate authority to persons or parties to assign fund balances in specific circumstances. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented as follows.

<u>Fund Balance Classification</u>	<u>Amount</u>
Restricted	
Federal/State Grants	\$151,137
Retirement of Long Term Debt	202,902
Assigned Fund Balances	
Undesignated/Unassigned	-
Unassigned Fund Balance	<u>142,372</u>
Total Fund Balances	\$ <u>496,411</u>

T. PRIOR PERIOD ADJUSTMENTS

During the year, the City has implemented GASB 68, Accounting For Pensions. As part of the implementation, prior period adjustments has been made to the Governmental Funds and the Utility Funds as a 75/25 split of this implementation, also, the City has made adjustments to correct liabilities that should have been recorded in the prior period. Adjustments were also made to the overall GASB entries for leases/fixed assets reflected on the prior ledgers. The City has made adjustments to correct liabilities that should have been recorded in the prior period. Adjustments were also made to the overall GASB entries for leases/fixed assets reflected on the prior ledgers.

U. SUBSEQUENT EVENTS

The City of Mathis, Texas, has no reportable litigation pending that is not covered by insurance and therefore, no liability is reflected in the financial statements for the September 30, 2015 fiscal year as necessary. The Council has evaluated subsequent events through January 11, 2019, the date which the financial statements were available to be issued.

REQUIRED SUPPLEMENTAL INFORMATION

**CITY OF MATHIS, TEXAS
REQUIRED SUPPLEMENTARY DISCLOSURE
AS OF SEPTEMBER 30, 2015**

BUDGETARY DATA

Annual budgets are legally adopted by council. The City Manager is authorized to transfer budgeted amounts within departments; however, any revisions that alter the total expenditures of a department must be approved by the City Council. Budgeted amounts reported in the 2014-2015 financial statements present the original and final amended budget approved by the Council. All unencumbered budget appropriations except project budgets, lapse at the end of each fiscal year. The following procedures are used by the City in establishing the budgetary date reflected in the financial statements:

1. Prior to first meeting in September, the City Manager is required to submit a proposed budget to the City Council. The operating budget includes proposed expenditures and the means of financing them.
2. Advertised public hearings are conducted.
3. The budget is required to be approved by October 1st.
4. The applicable rates are approved after the budget has been approved.
5. The budget may be amended as considered necessary. The budget and rates are enacted through the passage of ordinances.
